

## Music By The Sea Special

Come and stay with us and enjoy world class artists perform in Bamfield during the Music by the Sea. The Rix Centre for Ocean Discoveries is the venue for the concerts. It features a scallop-shell shaped roof which flares out to the Pacific Ocean with a sheer wall of glass. Superb acoustics and spectacular view of the west coast of Vancouver Island's mystic, bold Pacific, right behind the performers, make this truly the most inspiring venue anywhere in the Pacific Northwest. Each concert features a wide range of world-class performances from classical and contemporary solo and chamber music to sophisticated jazz and alternative music. The combination of this first-class music event and the luxury Eagle Nook Resort & Spa offers are a winning combination.
